## Homeowner Tips for Winter Snow and Ice Removal

With the unseasonably warm temperatures that we've been having, it's easy to forget that winter is just around the corner. We hate to be the bearer of bad news - but it's coming! With winter comes winter storms, and we wanted to remind you of snow and ice removal tips that are not only required, but will help keep you, your neighbors, and everyone else safe.

Please make sure to clear sidewalks adjacent to your property of snow and ice within 24 hours of a storm. Snowy and/or icy sidewalks pose a risk for everyone, especially little ones and older ones!

Do you have a fire hydrant on your property? If so, you're required to clear all snow and/or ice at a minimum of 3 foot away from it. We want our firefighters to be able to find those hydrants in the unlikely event of an emergency.

When clearing snow or ice from anywhere on your property (including sidewalks and driveways), please make sure you don't throw or shovel it into the street. It poses a danger to pedestrians, vehicles, and could hinder our snow removal efforts.

Not so fun fact: homeowners can be held liable for injuries due to failure to follow proper snow and ice removal on their properties. Don't be that person!

Do you have an extra long driveway? We suggest you keep it clear of ice and snow during the winter months even if you don't feel up to it (we understand!). If an emergency should happen to arise, you'll be glad you did.

If you have any questions about snow and ice removal for your property, please contact us at 412-788-4888. We're here Monday - Friday from 7:00am - 5:00pm.
